

I am outraged that Sinclair media group would direct their local stations to air such a one-sided, partisan, smear campaign program against John Kerry. This is an obviously illegal act--engaging in direct electioneering practices, and I insist that the FCC stop Sinclair group from engaging in such practices. The public airwaves are PUBLIC and used free of charge by the local affiliate stations of Sinclair, and Sinclair should remember this. They are OUR airwaves, not Sinclair's. And this "special program event" is in no way reflective or representative of the opinions or desires of the entire general public to have their airwaves used in such a biased, anti-Kerry, partisan manner. Shame on Sinclair! It's your job to stop this company from engaging in illegal activities. I insist you do so immediately.
